# Railway Mechanical Engineer

**FOUNDED IN 1832**

as the American Rail-Road Journal, with which are also incorporated the National Car Builder, American Engineer and Railroad Journal, and Railway Master Mechanic. Name Registered, U. S. Patent Office

Published on the second day of each month

## Simmons-Boardman Publishing Corporation

1309 Noble St., Philadelphia, Pa., Editorial and Executive Offices,  
30 Church Street, New York, and 105 West Adams Street, Chicago

SAMUEL O. DUNN, *Chairman of Board, Chicago*

HENRY LEE, *President, New York*

LUCIUS B. SHERMAN, *Vice-Pres., Chicago*

CECIL R. MILLS, *Vice-Pres., New York*

ROY V. WRIGHT, *Vice-Pres. and Sec., New York*

FREDERICK H. THOMPSON, *Vice-Pres., Cleveland*

ELMER T. HOWSON, *Vice-Pres., Asst. Sec.,  
and Asst. Treas., Chicago*

FREDERICK C. KOCH, *Vice-Pres., New York*

ROBERT H. MORRIS, *Vice-Pres., Chicago*

BERNARD L. JOHNSON, *Vice-Pres., Chicago*

DELBERT W. SMITH, *Vice-Pres., Chicago*

ROBERT E. CLEMENT, *Vice-Pres., New York*

JOHN T. DEMOTT, *Treas. and Asst. Sec., New York*

Cleveland:  
Terminal Tower

Washington:  
1081 National Press Bldg.

ROY V. WRIGHT, *Editor, New York*

C. B. PECK, *Managing Editor, New York*

E. L. WOODWARD, *Western Editor, Chicago*

H. C. WILCOX, *Associate Editor, New York*

R. C. AUGUR, *Associate Editor, New York*

ROBERT E. THAYER, *Business Manager, New York*

*The Railway Mechanical Engineer is a member of the  
Associated Business Papers (A. B. P.) and the Audit  
Bureau of Circulations (A. B. C.) and is indexed by the  
Industrial Arts Index and also by the Engineering Index  
Service.*

## VOLUME 110

### A

|  |                            |
|--|----------------------------|
| Acid pump, Morris B. Brewster .....  | 364*                       |
| Advance through Adversity, by L. K. Silcox .....                                       | 142                        |
| Air-conditioned cars .....   |                            |
| Mercury, N. Y. C. (Frigidaire) .....   | 337                        |
| Six year summary of .....  | 200§                       |
| Table of (1935) .....  | 98                         |
| Air conditioning .....   |                            |
| Holdover feature, Pullman-Standard Car Mfg. Co. ....                                   | 18*                        |
| Mechanical Division report .....   | 280, 284                   |
| Programs .....   | 131, 175†                  |
| Public asked to express views on .....   | 370†                       |
| Study (Mech. Div.) .....   | 41†, 366*                  |
| Air drag, Effect of natural winds on, by George W. DeBell .....                        | 145*                       |
| Air inlets to ashtrays (Can. Nat'l) .....  | 18*                        |
| Air resistance of passenger trains (a Correction) .....                                | 175                        |
| All Out of Step but Bill, by Walt Wyre .....   | 548*                       |
| Allen, H. K., Eliminating noises and rough riding passenger cars .....                 | 24*                        |
| Alloy roller for burnishing axle journals, 46c Alloy steels (see Steels, Alloy) .....  | 512*                       |
| American Car and Foundry Co. ....  |                            |
| Insulated car for dry ice .....  | 149                        |
| Underframes, Tank-car .....  | 299                        |
| Wind tunnel tests .....  | 145*                       |
| American Rolling Mill Co., High-tensile steel, HT 50 .....                             | 248                        |
| American Society for Metals, Surface rolling press-fitted axle assemblies .....        | 559                        |
| American Society of Mechanical Engineers .....   |                            |
| Steam rate and indicated horsepower, by Arthur Williams .....                          | 13*                        |
| American Steel Foundries, Causes of failures of railroad springs, by R. W. Clyne ..... | 491*                       |
| Apprentices, Need for .....  | 253§, 352§, 398§, 439, 287 |
| Arbitration committee report (Mech. Div.) .....  | 287                        |
| Arbitration Decisions .....  |                            |
| 1739—C. & I. W. vs. C. I. & L.—Rules 1 and 16 .....                                    | 30                         |
| 1741—G. M. & N. vs. New Orleans Public Belt—Rules 1 and 16 .....                       | 72                         |
| 1742—Sou. Pac. vs. C. R. I. & P.—Rules 12 and 90 .....                                 | 73                         |
| 1743—Sou. Pac. vs. Ill. Central—Rules 12 and 81 .....                                  | 164                        |
| 1744—C. R. I. & P. vs. Union Pacific—Rule 2 .....                                      | 73                         |
| 1745—St. Louis & O'Fallon vs. Peoria & Pekin Union—Rule 87 .....                       | 118                        |
| 1746—K. C. S. vs. D. & R. G. W.—Rule 107 .....   | 118                        |
| Arch-bar trucks (see Trucks, Arch-bar)   |                            |
| Association of American Railroads .....  |                            |
| Air conditioning report .....  | 280, 284                   |
| Air conditioning study .....   | 41†, 366*                  |
| Arbitration committee .....  | 287                        |
| Bearings, Anti-friction, for elec. rolling stock .....                                 | 280                        |
| Billing for foreign freight-car repairs .....  | 289                        |
| Brakes and brake equipment .....   | 282                        |
| Car construction .....   | 293, 309§                  |
| Connectors, Automatic train line .....   | 285                        |
| Convention .....   | 279, 309§                  |
| Couplers and draft gears .....   | 291*                       |
| Election of officers .....   | 280                        |
| Electric rolling stock .....   | 280                        |
| Exhibit, 1937 .....  | 310§                       |
| Front end, locomotive, arrangement .....   | 339*                       |
| Fuel consumption, Efficiency in .....  | 417†                       |
| General Committee .....  | 279, 309§                  |
| Letter ballot returns .....  | 564†                       |
| Lighting .....   | 284                        |
| Loading Rules .....  | 286                        |
| Locomotive construction .....  | 300*, 339*                 |
| Lubrication of cars and locomotives .....  | 281                        |
| Prices for labor and materials .....   | 282                        |
| Safety appliances .....  | 285                        |
| Shirley, J. A., Remarks of .....   | 279                        |
| Specifications for materials .....   | 285                        |
| Tank cars .....  | 304                        |
| Wallace, L. W., Remarks of .....   | 280                        |
| Wheels .....   | 306*                       |
| Wright, R. V., Remarks of .....  | 280                        |
| Associations, Mechanical, should be revived .....                                      | 1, 19§, 104§               |
| Atchison, Topeka & Santa Fe .....  |                            |
| Coach, Stainless steel .....   | 89*                        |

### B

|  |      |
|--|------|
| Atchison, Topeka & Santa Fe—(Continued) .....  | 96   |
| Fire, Cause of, on Diesel locomotive, 43† .....  | 74*  |
| Labor-saving devices at Albuquerque .....  | 167* |
| Oil and gas burner for shop furnaces .....   |      |
| Reaming device for brake-beam heads, by A. Skinner .....                                   | 406* |
| Trains, Chicago-Los Angeles .....  | 220† |
| Athol Machine & Foundry Co. ....   |      |
| Vise, Milling machine, with swivel-indexing base .....                                     | 451* |
| Vise, Steamfitters' .....  | 507* |
| Axle assemblies, Surface rolling (American Society for Metals) .....                       | 559  |
| Axles, Rail motor car (Mech. Div.) .....   | 297  |
| Axles, Report on (Mech. Div.) .....  | 297  |
| Baltimore & Ohio .....   |      |
| Air-conditioning laboratory tests (A. R.) .....  | 366  |
| All-welded car, First .....  | 154† |
| Model contest, Royal Blue .....  | 130† |
| Bearings, Journal: Disc-Flo unit, National Bearing Metals Corp. ....                       | 493* |
| Bearings, Rod, Relining, by centrifugal process (C. M., St. P. & P.) .....                 | 213* |
| Bearings, Roller (Mech. Div.) .....  | 301  |
| Belt, V., lengths, Checking .....  | 403* |
| Bentley, Frank, Cleaning small taps and tapped holes .....                                 | 127* |
| Besler steam train (N. Y., N. H. & H.) .....   | 497§ |
| Bessemer & Lake Erie, 55-ton hopper, approved .....  | 299  |
| Bethlehem Steel Co. ....   |      |
| Flat car, 70-ton .....   | 299  |
| Motion picture: "The Making of Alloy Steel" .....  | 220† |
| Paving blocks, Steel .....   | 128* |
| Beyer, Otto S., Message from .....   | 11   |
| Binks Mfg. Co. ....  |      |
| Spray gun, Model 7 .....   | 369* |
| Sprayer, Paint, Portable .....   | 515* |
| Blatchford Corp., Cooke micro-slotted nut .....  | 217* |
| Blind, Metlvan, for passenger cars, H. B. Dodge & Co. ....                                 | 395* |
| Boiler Inspection Act, Experimental devices not within .....                               | 175† |
| Boiler Makers' Assn. ....  |      |
| Convention .....   | 460  |
| Drop plugs, Fusible (Sou. Pac.) .....  | 58*  |
| Staybolt holes, Flanged (C. & O.) .....  | 59*  |
| Welding, Fusion, on boilers and tanks .....  | 215* |
| Boilers, Locomotive .....  |      |
| Belpaire (L. M. S.) .....  | 54*  |
| Welding, by Frank A. Longo .....   | 151§ |
| Welding, Fusion (Boiler Makers' Assn.) .....   | 215* |
| Books .....  |      |
| Axleboxes and Related Parts, by R. R. Brinkworth .....                                     | 400  |
| Corrosion Resistance of Metals and Alloys, by Robert J. McKay and Robert Worthington ..... | 498  |
| Dictionary of Mechanical Engineering Terms, by J. G. Horner .....                          | 498  |
| Diesel Locomotives and Rail Cars, by Brian Reed .....                                      | 442  |
| Elements of Diesel Engineering, by Orville Adams .....                                     | 311  |
| Engineering Questions and Answers .....  | 442  |
| Handbook of Engineering Fundamentals, Eschbach .....                                       | 541  |
| Henschel Review .....  | 354  |
